

Founder Credentials Summary

Eric Kasunich — Meteorologist, FAA Part 107 Remote Pilot, veteran, educator, and founder of EK Atmospheric Solutions LLC.

Meteorology Consulting • Forensic Weather Analysis • Aerial Documentation

Professional Summary

Eric Kasunich brings a multidisciplinary background in applied meteorology, military weather operations, broadcast communication, forensic weather analysis, education, and aerial documentation. EKAS was built to combine scientific weather interpretation with field-ready imagery and clear deliverables for legal, insurance, property, infrastructure, real estate, and operational clients.

Credential Themes

- **Applied meteorology** — Graduate-level meteorology training and experience interpreting synoptic, mesoscale, tropical, radar, satellite, and climatological data.
- **Military weather experience** — Operational weather support, observations, aviation/weather briefings, and mission-focused communication.
- **Broadcast and public communication** — Experience explaining high-impact weather, forecasts, warnings, hurricanes, and severe weather to public audiences.
- **Forensic consulting and reporting** — Weather-history research, radar/satellite review, historical data, GIS graphics, report development, and case-support communication.
- **FAA Part 107 aerial documentation** — Commercial drone operation integrated with meteorological context for property, storm, real estate, and infrastructure documentation.

EKAS Value Proposition

Many providers can pull weather data or operate a drone. EKAS is positioned to connect the weather story, site evidence, imagery, and client decision-making need into one professional package.
