

Website Disclaimer and Data Tool Notice

Disclaimer for weather links, operational tools, WBGT calculator, live data displays, and public informational content.

Meteorology Consulting • Forensic Weather Analysis • Aerial Documentation

General Disclaimer

Website information is provided as a general resource and should not be treated as a final, site-specific professional opinion. Formal forensic, consulting, climate, or aerial deliverables require engagement, data review, scope confirmation, and professional analysis.

WBGT Tool Notice

- The WBGT calculator is a planning and screening estimate based on available weather inputs or forecast data.
- True WBGT should ideally be measured with calibrated field instrumentation and proper exposure conditions.
- Do not rely solely on the website tool for athletic, occupational, military, emergency, medical, or life-safety decisions.
- Follow official OSHA, NIOSH, employer, school, athletic association, military, emergency management, or public-health guidance.

Forecast and Live Data Notice

- Weather forecasts and live data may be delayed, unavailable, outdated, incomplete, or changed by third-party providers.
- Radar, satellite, alert, and forecast products may not load in all browsers or network environments.
- For official watches, warnings, advisories, and emergency information, use the National Weather Service and local authorities.

Aerial and Climate Notice

Aerial imagery on the website is illustrative and not a structural inspection or causation opinion. Climate risk content describes exposure considerations and does not guarantee future weather, property value, insurability, loss outcomes, or investment performance.
